Pro 70

A mid-strength protein supplement for sheep and cattle

Pro 70 is a mid-range 22% urea and 22% bypass protein meal block which was developed for cattle in dry feed areas.

Ideal for areas that have a bulk of early dry feed where livestock will thrive on the combination of urea, bypass meal and minerals.

Dry grass low in protein can be effectively utilised more efficiently with the use of Pro 70 supplementation.

Typical Analysis*

Urea	225g/kg	22.5%
Cottonseed Meal	220g/kg	22%
Minimum equivalent crude urea from natural sources	630g/kg	63%
Min crude protein from natural sources	70g/kg	7%
Total minimum crude protein	700g/kg	70%
Molasses	50g/kg	5%
Salt (NaCl) Min		25%
Salt (NaCl) Max		30%
Macro Ingredients		
Phosphorus (P)	10g/kg	1%
Calcium (Ca)	30g/kg	3%
Sulphur (S)	20g/kg	2%
Micro Ingredients		
Magnesium (Mg)	100mg/kg	
Potassium (K)	25mg/kg	
Cobalt (Co)	10mg/kg	
Copper (Cu)	20mg/kg	
Zinc (Zn)	50mg/kg	
Manganese (Mn)	5mg/kg	
Vitamin A	50iu/kg	
Vitamin E	80iu/kg	

Note: The above analysis represents the constituent ingredients and relative proportions of the typical product only. Actual constituent ingredients and relative proportions may vary from that outlined above.

Pack Size | 20kg & 100kg Blocks

Average Consumption

Cattle | 100 – 200g per head per day

Sheep | 10 – 15g per head per day

Urea Warning: This product contains Urea that may be harmful to animals if not properly administered. Do not feed to starving animals or animals in poor condition. Make sure that a bulk roughage is always available when feeding this product. Rain may cause this product to deteriorate. Do not feed out other Urea products while feeding this product.

Replace immediately when consumed.

Note: Average block consumption will increase in highly phosphate deficient areas and with poor quality feed.
