Pro 40

A premium protein supplement for sheep and cattle

A balanced protein block with 12% urea and 20% Natural protein Meal. Highly suitable for both cattle and sheep.

The balanced combination of Natural protein meal and urea will give an extended rumen stimulation time allowing livestock to digest more pasture leading to higher production rates, meaning more dry feed is properly digested over longer time periods.

Optimum PRO 40 is a safe and efficient supplement to feed out all the time during a dry period, ideal for all cattle and sheep. It also contains balanced combinations of natural protein meal and urea to give an extended rumen stimulation time, meaning that more dry feed is properly digested over longer time periods.

Typical Analysis*

Urea	120g/kg	12.0%
Natural Protein/protein Meal	200g/kg	20.0%
Total min crude protein	67g/kg	6.7%
Total equivalent crude protein	336g/kg	33.6%
Molasses	50g/kg	5.0%
Salt (NaCl) Min		40.0%
Salt (NaCl) Max		44.0%
Phosphorus (P)	20g/kg	2.0%
Calcium (Ca)	80g/kg	8.0%
Sulphur (S)	25g/kg	2.5%
Cobalt (Co)	10mg/kg	
Copper (Cu)	30mg/kg	

Note: The above analysis represents the constituent ingredients and relative proportions of the typical product only. Actual constituent ingredients and relative proportions may vary from that outlined above.

Pack Size 20kg & 100kg Blocks

Average Consumption

Cattle & Sheep	20KG – 4 blocks per 100 head for 7 days
	100KG – 1 block per 100 head for 10 days

Urea Warning: This product contains Urea that may be harmful to animals if not properly administered. Do not feed to starving animals or animals in poor condition. Make sure that a bulk roughage is always available when feeding this product. Rain may cause this product to deteriorate. Do not feed out other Urea products while feeding this product.

Replace immediately when consumed.

Note: Average block consumption will increase in highly phosphate deficient areas and with poor quality feed.

PRO-40
A premium protein supplement for cattle and sheep

*TYPICAL ANALYSIS		RECOMMENDED FEED OUT RATES	
Urea	120g/kg 12.0%	CATTLE: Approx. 4 blocks per 100 head per 7 days	
Natural protein/protein meal	200g/kg 20.0%	SHEEP: Approx. 4 blocks per 100 head per 7 days	
Total min. crude protein Total	67g/kg 6.7%	NOTE: Average block consumption can double in area feed conditions.	
Equivalent crude protein	336g/kg 33.6%	It may occur under 100% feed out. Contact your supplier for further advice.	
Molasses	50g/kg 5.0%	20KG BLOCKS: 4 blocks per 100 head	
Salt (NaCl) Min			
Salt (NaCl) Max			
Phosphorus (P)	20g/kg 2.0%		
Calcium (Ca)	80g/kg 8.0%		
Sulphur (S)	25g/kg 2.5%		
Cobalt (Co)	10mg/kg		
Copper (Cu)	30mg/kg		

CONSTITUTION OF SALTS:
This product contains urea and urea (the 'identified urea') in the form of urea. The urea is a natural product of the rumen and is not synthetic. It is not a urea derivative and does not contain any urea derivatives. The urea is a natural product of the rumen and is not synthetic. It is not a urea derivative and does not contain any urea derivatives. The urea is a natural product of the rumen and is not synthetic. It is not a urea derivative and does not contain any urea derivatives.
